

Home Safety Checklist

ADT is committed to safety. While offering a wide variety of products and services that can help protect you and your family, we want to provide you with additional information that can make your home a safer place to live.

- A neighbor or nearby relative has a spare key to your home.
- All medications are kept in clearly marked containers and stored in one place with a dosage schedule.
- Kitchen cabinets are arranged so that the items you use most are easy to reach.
- Smoke and carbon monoxide detectors have fresh batteries.
- Your home's interior is painted with bright colors so walls, doorways and stairs can be easily seen.
- You use a stable step stool with a nonskid surface.
- All flammables—including curtains, towels and certain cleansers—are kept away from the stove.
- All household chemicals are tightly capped and stored away from ignition sources.
- You stay in touch with neighbors, friends and people you know.
- A telephone and lamp or light switch can be easily reached in bed.
- You use nightlights in the bedroom, bathroom and hallways.
- You keep a flashlight handy.
- All staircases are equipped with handrails.
- All shower, tub and toilet areas are equipped with grab bars.
- All telephone and electrical cords are kept out of pathways.
- You have a personal emergency response system to contact emergency services if help is needed.

Questions to Ask Before Purchasing a PERS.

A personal emergency response system (PERS) is a highly innovative technology that can alert emergency personnel if you need help. There are many different systems on the market, so it's important to ask these questions before you decide which system to purchase.

- Is it available as a pendant or a wristband?
- Is it easy to use?
- Does it offer quick response with the simple press of a button?
- Does it offer long-range capability?
- Will it work in virtually any room in any home?
- Does it offer a two-way voice intercom that doubles as a speakerphone?
- Does it include 24-hour connection to a trained monitoring professional?
- Does it offer low monthly monitoring?
