

School Security Checklist

This list of questions is designed to help you quickly and easily identify areas where your school campus could be vulnerable to security breaches. It may also open up areas of opportunity you'd be interested in discussing with our experienced team of school security professionals. They can provide you with a thorough assessment of your grounds, buildings, facilities and networks in order to develop an actionable plan for addressing your specific needs.

What is your current security situation?

The checklist represents just a narrow sample of the issues your school may be facing. Of course, every situation is different, which is why ADT will provide a Free Risk Assessment at your request. ADT is the leading name in security, and we can help school systems and administrators bring together financial and technological resources for a comprehensive security solution.
